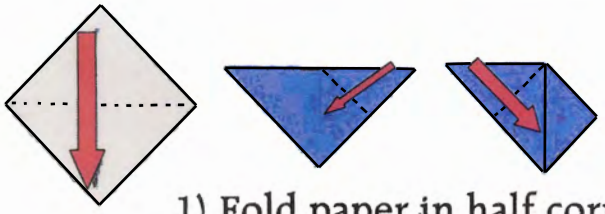
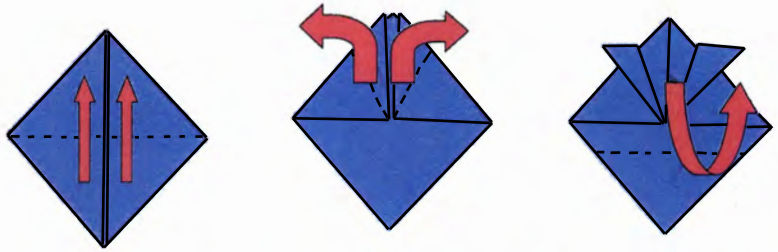
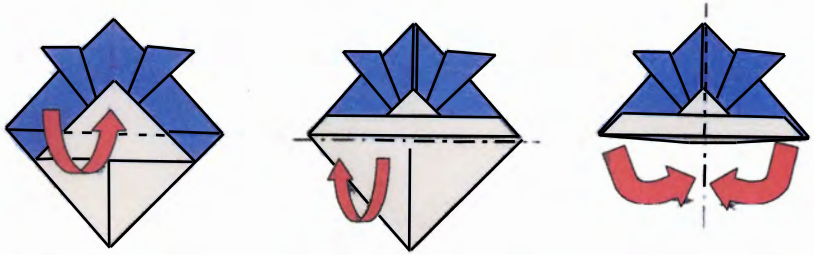
Fish Origami



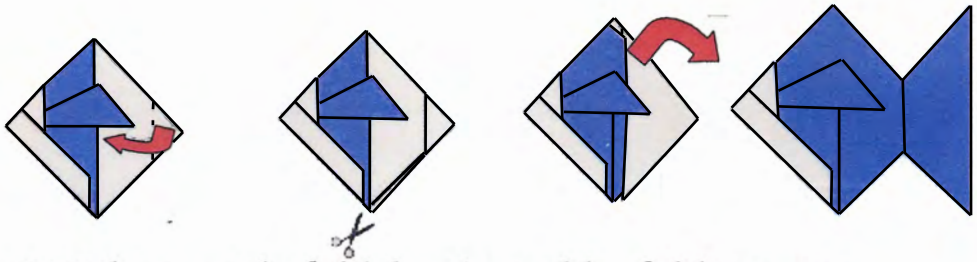
1) Fold paper in half corner to corner. Fold down corners as shown.



2) Fold loose corners up and out. Fold one side of base up once



3) Fold base once more over main body. Fold other side of base up once. Invert the pocket the folded bases have made.



4) Make a guide fold for the tail by folding over and back again. Cut along both sides of tail to guide fold as shown. Fold flaps back to make tail.
