

Florida Black Bear

Curriculum Workshop

For educators of grades 3-8

(DATE & TIME)

(PLACE)

(CONTACT TO REGISTER)

The Curriculum Guide is a comprehensive series of lessons on the natural history and conservation needs of Florida's black bear. The 10 lessons were designed to address many subject areas such as reading, language arts, history, geography, social studies, math, art and science. Each lesson is correlated to the Sunshine State Standards for each subject addressed and includes FCAT-style prompts.

Free 4-6 hour workshops are offered and educators must attend a workshop to receive the curriculum guide. Participating teachers are eligible for in-service points. For more information visit http://myfwc.com/LEARNING/Learn_BlackBear.htm or contact
