# **SPINY LOBSTER AD HOC ADVISORY BOARD MEMBERSHIP AND REPRESENTATION**

## **PROJECT OVERVIEW**

The Florida Fish and Wildlife Conservation Commission (FWC) has invited representatives of interests participating in Florida's Lobster Fishery to serve as members of an ad hoc lobster advisory board, "The Spiny Lobster Ad Hoc Advisory Board" (LAB). The advisory board is designed to bring together a group of stakeholder representatives from around the state who represent the diversity of the lobster fishery community and includes commercial lobster trappers, commercial lobster divers, recreational lobster fishers, a special recreational license holder, wholesale lobster dealers, an NGO, and a representative from the FWC. The goal is to convene a group of representative stakeholders who can provide constructive comments and guidance to the FWC in the form of proposed refinements to the management of Florida's spiny lobster fishery. Over a period of sixteen months the advisory board will meet approximately eight times for approximately two days each to focus on reviewing and discussing lobster fishery issues and proposals for refinements to Florida's spiny lobster fishery.

# SPINY LOBSTER AD HOC ADVISORY BOARD PROCEDURAL GUIDELINES

## MEMBER’S ROLE

- The Board’s meeting process is an opportunity to explore possibilities. Offering or exploring an idea does not necessarily imply support for it.
- Listen to understand. Seek a shared understanding even if you don’t agree.
- Be focused and concise—balance participation & minimize repetition. Share the airtime.
- Look to the Facilitator to be recognized. Please raise your hand to speak.
- Speak one person at a time. Please don’t interrupt each other.
- Focus on issues, not personalities. Avoid stereotyping or personal attacks.
- To the extent possible, offer options to address other’s concerns, as well as your own.
- Represent and communicate with member’s constituent group.

## FACILITATOR’S ROLE

- Design and facilitate a participatory meeting process.
- Provide consensus-building and conflict resolution guidance.
- Assure that participants follow ground rules—Assist participants to stay focused and on task.
- Facilitate public participation and input.
- Prepare agenda packets and provide meeting summary reports.

## GUIDELINES FOR BRAINSTORMING

- Speak when recognized by the Facilitator.
- Offer one idea per person without explanation.
- No comments, criticism, or discussion of other's ideas.
- Listen respectfully to other's ideas and opinions.
- Seek understanding and not agreement at this point in the process.

## THE NAME STACKING PROCESS

- Determines the speaking order.
- Members raises hand to speak. Facilitator will call on participants in turn.
- Facilitator may interrupt the stack (change the speaking order) in order to promote discussion on a specific issue or, to balance participation and allow those who have not spoken on a issue an opportunity to do so before others on the list who have already spoken on the issue.

## ACCEPTABILITY RANKING SCALE

During the meetings, members will be asked to develop and evaluate options, and following discussions and refinements, may be asked to do additional evaluations of the options as refined. Members should be prepared to offer specific refinements to address their reservations. Scores of 4 and 3 are considered in favor of the proposal, while scores of 2 and 1 are considered generally un-supportive of the proposal. The following scale will be utilized for the ranking exercises:

<b>Acceptability Ranking</b>	<i>4 = acceptable, I agree</i>	<i>3 = acceptable, I agree with minor</i>	<i>2 = not acceptable, I don't agree unless major</i>	<i>1 = not acceptable</i>
----------------------------------	------------------------------------	---	---	-------------------------------

<b>Scale</b>		<i>reservations</i>	<i>reservations addressed</i>	
--------------	--	---------------------	-------------------------------	--

# CONSENSUS-BUILDING GUIDELINES

## The Spiny Lobster Ad Hoc Advisory Board Consensus Guidelines

The Spiny Lobster Ad Hoc Advisory Board (LAB) will seek consensus decisions on its recommendations to the Commission staff. General consensus is a participatory process whereby, on matters of substance, the members strive for agreements which all of the members can accept, support, live with or agree not to oppose. In instances where, after vigorously exploring possible ways to enhance the members' support for the final decision on a recommendation, and the Board finds that 100% acceptance or support is not achievable, final decisions will require at least 75% favorable vote of all members present and voting. This super majority decision rule underscores the importance of actively developing consensus throughout the process on substantive issues with the participation of all members and which all can live with. In instances where the Board finds that even 75% acceptance or support is not achievable, publication of recommendations will include documentation of the differences and the options that were considered for which there is more than 50% support from the Advisory Board.

The Board's consensus process will be conducted as an open public advisory committee process consistent with applicable law. Board members, staff, and Facilitator will be the only participants seated at the table. Only Board members may participate in discussions and vote on proposals and recommendations. The Facilitator, or a Board member through the Facilitator, may request specific clarification from a member of the public in order to assist the Board in understanding an issue. Observers/members of the public are welcome to speak during the public comment period provided at each meeting, and all comments submitted on the public comment forms provided in the agenda packets will be included in the Facilitator's summary reports.

## The Spiny Lobster Ad Hoc Advisory Board Guiding Principles

- Principle 1:** The overall purpose of the Spiny Lobster Ad Hoc Advisory Board (LAB) is to serve as an advisory body to the Florida Fish and Wildlife Conservation Commission (FWC).
- Principle 2:** The LAB shall operate under clear, concise, consistent, and fair procedural protocols.
- Principle 3:** The LAB shall strive to achieve consensus on substantive recommendations made to the FWC.
- Principle 4:** The LAB shall serve as an accessible liaison between the Board and their representative constituency groups to meet their mission.

## The Spiny Lobster Ad Hoc Advisory Board Mission Statement

The Spiny Lobster Ad Hoc Advisory Board, representing diverse stakeholder interests from around the state, will provide advice and guidance to the Florida Fish and Wildlife Conservation Commission and staff to improve the viability and sustainability of Florida's lobster fishery, and the efficiency and effectiveness of the management program. The Board's initial task will be to review, discuss and seek consensus on guidance and advice to the Commission for proposed refinements to Florida's lobster fishery management plan.
