3. When buildings are used for alligator grow-out, they shall be separate for each farm.

4. Egg incubators, if provided, shall be in buildings separate from those of any other contiguous farm.

(h) No one shall transfer a permit or interest in a permit to a relative or to any other person or change executive officers or directors when the Commission has notified the permittee in writing that revocation or non-renewal proceedings have been or will be brought against the permit, or when a permittee, executive officer, director, or person holding an interest in the permit or business has been arrested, charged, indicted, or convicted, or has appealed the conviction, of a crime which is disqualifying under Commission rules or regulations. Any alligator farm permit possessed by persons convicted of any violation of Section 379.409 or 379.3015, F.S., or the rules of the Commission relating to the illegal taking of any crocodylian species shall be revoked.

(j) Upon revocation or non-renewal of an alligator farm permit as provided in Rule 68-1.010, F.A.C., the permittee shall have six (6) months to dispose of legally acquired alligator stock. The alligator farm and stock may not be sold or otherwise disposed of to any alligator farm of which the permittee or a relative is an officer, director, or principal or holds any interest.

(3) Record keeping requirements:

(a) Permittees shall maintain inventory records of the number of alligator eggs and alligators in each incubator, tank, pond, and enclosure. The source and disposition of eggs and alligators added to or removed from each incubator, rearing tank, and breeding stock enclosure shall be accurately recorded. Such inventory, source, and disposition records shall be kept on the farm on an Alligator Farm Inventory Record (FWC Form 1004AF, effective June 30, 1992, which is incorporated herein by reference and may be obtained from the Commission) or in a manner that is substantially in compliance with the required record keeping.

(c) Records required under this subsection shall be maintained until December 31 of the following year.

(4) Reporting requirements:

(a) An Alligator Farm Annual Report (FWC Form 1000AF, effective September 5, 2013, which is incorporated to this rule by reference and may be obtained from the Commission and is found online at: <http://www.flrules.org/Gateway/reference.asp?No=Ref-03227>) shall be completed at the conclusion of each calendar year and submitted to the Commission by January 31.

(b) Failure to submit complete reports that accurately reflect farm records as required by this section shall be punishable as provided in Section 379.401(1)(a), F.S.

(5) Inspection and inventory requirements:

(a) Commission personnel may, during reasonable hours, enter and inspect all alligator farmers' places of business, farm buildings, farm lands, vessels, and motor vehicles that are used or are of a type that could be used in the production, storage, sale, or transportation within this state of any alligators, their eggs, meat, or hides; inspect all records or documents pertaining thereto; and conduct partial inventories to determine if the permittee is in compliance with applicable laws and regulations. The permittee or designee shall make such records open to inspection upon request by Commission personnel.

(b) A complete inventory of any stock is authorized to be scheduled, conducted, and directed by Commission personnel during reasonable hours to determine an accurate count of alligators present on a farm under one or more of the following conditions:

2. Upon two or more failures during a calendar year to maintain complete alligator farming records.

68A-25.004 Regulations Governing the Operation of Alligator Farms, cont.

3. Prior to the transfer of alligator stock upon revocation or non-renewal of an alligator farming permit.

4. When a partial inventory reveals a discrepancy of ten (10) percent or more in inventory records. A partial inventory is defined as counting the alligators in not more than three (3) rearing tanks or counting ten (10) percent of the entire reported inventory, whichever is greater.

5. When the annual report submitted by a permittee indicates a discrepancy that cannot be reconciled between the permittee's records of the farm's total inventory and the Commission's computed total number of alligators that should be present on a farm based on the previous years' annual reports and records of receipts, dispositions, harvests, and transfers of eggs and alligators, provided that the permittee shall have seven (7) days to resolve such discrepancies to the satisfaction of the Commission.

(c) The alligator farm permittee shall provide all labor, equipment, and materials necessary to conduct inventories. Failure to abide by this requirement shall result in the suspension of all unused CITES tags and suspension of authorization to transfer alligators and alligator eggs as provided for in subsection 68A-25.004(8), F.A.C., until the inventory is completed.

(d) It shall be a violation of this section, punishable as provided in Section 379.401(2)(e), F.S., if a total physical inventory reveals a discrepancy in the recorded numbers of alligators by a farmer in excess of ten (10) percent. Any CITES tags that have been issued to the farm permittee in excess of the number of harvestable alligators actually present on the farm, as revealed by the inventory, shall be seized by Commission personnel and returned to the Commission.

(e) The permittee shall make all captively produced alligator eggs that are incubated on the farm available for inspection by August 1 of each nesting year. Such eggs shall be made available for inspection during reasonable hours in containers having not more than one layer of eggs at each incubation facility on the alligator farm. Only viable alligator eggs will be credited to the egg inventory. Eggs laid after August 1 may be collected and added to the egg inventory only if egg development characteristics indicate a laying date after August 1, and nests are verified by Commission personnel prior to being collected.

(6) Specifications for alligator farms:

(a) Pens or holding facilities shall be constructed in a manner to prevent the escape of any alligator contained in such pen or facility or entrance by any alligator from outside such pen or facility. The ponds and outdoor tanks of all farms licensed to exhibit wildlife under Section 379.3761, F.S., shall conform to the fencing requirements for alligators as provided in Rule 68A-6.003, F.A.C. Farms not licensed to exhibit wildlife shall not be required to meet such standards, but shall have fencing five feet in height consisting of not less than 11 1/2 gauge chain link or its strength equivalent and utilize fence ties 11 1/2 gauge or its strength equivalent to secure the fencing to posts, rails, and to any other structural parts to prevent the escape or entrance of an alligator.

(b) Alligators less than four (4) feet in length shall be kept in readily drainable rearing tanks of concrete, fiberglass, plastic, or metal construction or other materials approved by the executive director or designee that will ensure their secure and humane confinement.

(c) Minimum space requirements shall be:

1. One half (0.5) square foot of space for each alligator less than 24 inches in length and enough space to allow the alligator to at least partially submerge and partially exit from the water.

2. One and a half (1.5) square feet of space for each alligator measuring 24 inches to 48 inches in length and enough space to allow the alligator to at least partially submerge.

3. Three (3) square feet of space for each alligator greater than 48 inches in length and enough space to allow the alligator to at least partially submerge.

Alligator farm permittees who also display alligators residing in their permanent enclosures to the public shall furnish alligator housing of sufficient size and design as provided by Rules 68A-6.004 and 68A-6.0023, F.A.C.

68A-25.004 Regulations Governing the Operation of Alligator Farms, cont.

(a) Any alligator killed under the authority of this section or that dies on a farm shall be recorded in the farm inventory records and either tagged within 24 hours with a CITES tag, furnished at no cost to the alligator farm permittee by the Commission, or destroyed. The CITES tag shall remain attached to the alligator hide until the hide is tanned, taxidermy mounted, or exported from the state. CITES tags may not be altered to compromise the locking mechanism in any way and shall be used only one time. The possession of any alligator hide or carcass not tagged as prescribed herein or any unskinned, untagged, frozen alligator carcass is prohibited, and such hides and carcasses shall be subject to seizure and forfeiture to the Commission under the provisions of Section 379.338, F.S.

(b) Alligator meat not discarded shall be processed or sold in accordance with Rule 68A-25.052, F.A.C.

(d) Tagged, unskinned alligator carcasses and tagged hides may be sold or otherwise disposed of.

(e) Property rights to unused CITES tags issued to alligator farm permittees shall be vested in the Commission, and unused CITES tags shall remain the property of the Commission. No person except the alligator farm permittee or licensed farming agents shall possess any unused CITES tag at any time.

(f) All unused CITES tags shall be returned to the Commission with the annual report by January 31 of the following year. It shall be a violation of this section for any person to possess any unused CITES tag(s) from the previous year after January 31.

(8) Transfer of alligator eggs and live, untagged alligators from alligator farms:

(a) Alligator eggs and live, untagged alligators may be sold and may be transferred but only to other licensed alligator farms; to exhibitors licensed pursuant to Section 379.3761, F.S.; to persons permitted to receive such eggs or alligators; or to persons out of state.

(b) The transfer of any alligator egg or live, untagged alligator from an alligator farm premises shall be documented on a Captive Alligator and Egg Transportation/Transfer Document (FWC Form 1006AF, effective April 30, 2000, which is incorporated herein by reference and may be obtained from the Commission). The originating farm permittee shall complete and sign the Captive Alligator and Egg Transportation/Transfer Document before the transfer, obtain the signature of the recipient on the document, and forward the document to the Commission, within 30 days following the date of transfer. A copy of the completed document must accompany the alligators or alligator eggs during transport.

68A-25.031 Regulations Governing Alligator Egg and Hatchling Collections on Lands Not Included in Alligator Management Programs.

(1) Conditions governing alligator hatchling collections:

(a) Establishment of hatchling collection areas, quotas, and a coordinator:

1. Alligator hatchling collection areas shall be established by the executive director, or his designee, that are suitable for surveying, establishment of quotas, and collection based upon habitat characteristics and expected numbers of hatchlings.

2. Alligator hatchling collection quotas will be established by the executive director, or his designee, for individual counties or other specified management units. Such quotas will be based on the quantity of alligator habitat in each individual county and the best biological information that indicates the number of hatchlings that can be removed from the system without long-term adverse impacts on population levels.

3. Farmers permitted as eligible to receive hatchlings from the wild as specified in paragraph 68A-25.004(2)(e), F.A.C., and licensed as specified in Section 379.3751, F.S., who wish to participate in hatchling collections shall apply in writing. Farmers also permitted as eligible to collect hatchlings from the wild as

68A-25.031 Regulations Governing Alligator Egg and Hatchling Collections on Lands Not Included in Alligator Management Programs, cont.

specified in paragraph 68A-25.004(2)(f), F.A.C., may identify the person for whom they vote to be permitted as the hatchling collection coordinator (herein referred to as hatchling coordinator). Applications must be received by the Commission by July 1 of each year. For purposes of this rule, receipt shall mean actual receipt on or before the deadline by the Commission by U.S. Mail, express delivery, hand-delivery, or facsimile (fax) copy. Applications received after July 1 will not be accepted irrespective of the postmark date. The executive director, or his designee, shall issue a permit to direct and conduct hatchling collections on behalf of eligible participants to the individual receiving the majority of the votes from eligible voting members. The hatchling coordinator shall be licensed as an alligator farmer as specified in Section 379.3751, F.S., prior to being issued a permit.

(b) Procedures and requirements for alligator hatchling collections:

1. The hatchling coordinator shall solicit the participation of eligible farmers as follows:

a. Farmers permitted pursuant to paragraph 68A-25.004(2)(f), F.A.C., shall be given the first opportunity to contribute fee payment for hatchlings in the established collection quota.

b. In the event that farmers permitted pursuant to paragraph 68A-25.004(2)(f), F.A.C., do not contribute fee payments for all hatchlings in the established quota, other eligible farmers not permitted pursuant to paragraph 68A-25.004(2)(f), F.A.C., shall be given the opportunity to contribute fee payments for the remaining hatchling quota.

2. Within five working days of receiving notice from the Commission of the established hatchling quota, the hatchling coordinator shall purchase hatchling tags at a cost of \$5 each for each hatchling in the quota for which he intends to collect and shall indicate the percentage of the fees that was paid by farmers not permitted pursuant to paragraph 68A-25.004(2)(f), F.A.C.

3. The hatchling coordinators shall be issued a permit specifying the areas, quotas, and requirements for hatchling collections.

4. Alligator hatchling collections may be conducted only according to provisions of the hatchling collection permit and only from locations and during periods specified in the permit.

5. The hatchling coordinator shall be solely responsible for making fee payments, informing participants in the collection of permit requirements, ensuring that permit requirements are met, meeting reporting requirements, conducting hatchling collections, and equitably distributing hatchlings to group participants.

6. Farmers submitting applications consistent with subparagraph (1)(a)3., above, and who are permitted pursuant to paragraph 68A-25.004(2)(f), F.A.C., shall be given equal opportunity to participate in the hatchling collection and distribution; farmers who are not permitted pursuant to paragraph 68A-25.004(2)(f), F.A.C., shall be entitled to receive a share of the hatchlings collected in proportion to the percentage of the fees that they paid.

7. Hatchlings may only be taken under this rule by alligator farmers in the collection group, the hatchling coordinator, and their agents licensed as specified in Section 379.3751, F.S.

8. Alligator hatchlings shall not be collected pursuant to this subsection from egg collection areas established under subsection (2), from lands included in alligator management programs established under Rule 68A-25.032, F.A.C., or from areas designated by the executive director, or his designee, as closed to such collections in order to provide for scientific studies or as necessary to protect alligator populations.

9. Alligator hatchlings shall be immediately tagged upon capture with alligator hatchling tags, except that hatchlings captured from a boat shall be tagged no later than immediately upon return to shore. A hatchling collection form (FWC Form 1002AF, effective date April 1, 1996, incorporated herein by reference) provided by the Commission must be completed prior to leaving the collection site and shall accompany the hatchlings at all times until they are delivered to a participating permittee's alligator farm. Hatchling collection forms shall be submitted to the Commission as specified in the collection permit. No person shall possess any untagged alligator hatchlings acquired pursuant to this section.

68A-25.031 Regulations Governing Alligator Egg and Hatchling Collections on Lands Not Included in Alligator Management Programs, cont.

10. Alligator hatchlings shall be transported and housed in suitable facilities as provided in Rule 68A-6.005, F.A.C., and transported to participating permitted alligator farms within fifteen (15) days following collection.

11. Alligator hatchling tags issued to the hatchling coordinator shall remain the sole property of the Commission until attached as provided herein. The hatchling coordinator's agents licensed pursuant to Section 379.3751, F.S., and any licensed alligator farmer and licensed agent(s) for that farmer while in the presence of that farmer who is authorized to do so by the hatchling coordinator may possess unused hatchling tags and take alligator hatchlings as specified in the permit and this section. Licensees taking hatchlings independent of the hatchling coordinator shall be in possession of a copy of the collection permit. The hatchling coordinator shall be strictly liable to ensure that all alligator hatchling tags remain in his possession, the possession of licensed alligator farmers he has authorized to take hatchlings, or the possession of his licensed agent(s).

12. All unused alligator hatchling tags issued pursuant to this section shall be returned to the Commission as specified in the collection permit.

(2) Conditions governing alligator egg collections:

(a) Establishment of egg collection areas, groups, coordinators, and quotas:

1. Alligator egg collection areas shall be established by the executive director, or his designee, that are suitable for surveying, establishment of quotas, and collection based upon habitat characteristics, expected nest densities, and anticipated costs of surveys and collections.

2. Egg collection permits shall be issued for no more than two groups of eligible alligator farmers.

3. Farmers permitted as eligible to receive eggs from the wild as specified in paragraph 68A-25.004(2)(e), F.A.C., and licensed as specified in Section 379.3751, F.S., who wish to participate in egg collections shall apply and identify, in writing, the collection group in which they elect to participate. Farmers also permitted as eligible to participate in the collection and distribution of eggs as specified in paragraph 68A-25.004(2)(f), F.A.C., may identify the person for whom they vote to be permitted as the egg collection coordinator (herein referred to as egg coordinator). Applications must be received by the Commission by April 1 of each year. Eligible farmers meeting the April 1 application deadline may transfer to the other collection group upon written request received by the Commission. Such transfer requests must be received by April 15. For purposes of this rule, receipt shall mean actual receipt on or before the deadline by the Commission by U.S. Mail, express delivery, hand-delivery, or facsimile (fax) copy. Applications and transfer requests received after April 1 and April 15, respectively, will not be accepted irrespective of the postmark date. The executive director, or his designee, shall issue permits to direct and conduct egg collections on behalf of group participants to the individuals receiving the majority of the votes from eligible voting members in each group. Each egg coordinator shall be licensed as an alligator farmer as specified in Section 379.3751, F.S., prior to being issued a permit.

4. Quotas for the number of nests that may be opened on each collection area shall be determined by Commission biologists conducting surveys and will be set to ensure no long term negative impacts on alligator populations.

5. The proportion of the total nest quota to be assigned to a collection group will be calculated as the number of farms permitted pursuant to paragraph 68A-25.004(2)(f), F.A.C., participating in that collection group on April 1, divided by the total number of farms permitted pursuant to paragraph 68A-25.004(2)(f), F.A.C., participating in either collection group.

(b) Procedures and requirements for alligator egg collections:

1. Egg coordinators shall solicit the participation of group members as follows:

a. Farmers permitted pursuant to paragraph 68A-25.004(2)(f), F.A.C., shall be given the first opportunity to contribute fee payments for nests assigned to their group.

b. In the event that farmers permitted pursuant to paragraph 68A-25.004(2)(f), F.A.C., do not contribute fee payments for all nests assigned to the group, farmers in the group not permitted pursuant to paragraph

68A-25.031 Regulations Governing Alligator Egg and Hatchling Collections on Lands Not Included in Alligator Management Programs, cont.

68A-25.004(2)(f), F.A.C., shall be given the opportunity to contribute fee payments for the remaining nest quota.

2. Within five working days of receiving notice from the Commission of the group's total nest quota and collection area assignments, each egg coordinator shall purchase 25 egg fee permits at a cost of \$5 per egg for each nest in the quota from which he intends to collect eggs and shall indicate the percentage of the fees that was paid by farmers in the group not permitted pursuant to paragraph 68A-25.004(2)(f), F.A.C. If payment is not made for the full nest quota, the egg coordinator shall provide notice in writing with the fee payment of the areas from which he does not intend to collect eggs and, if a partial quota is to be collected from an area, shall specify the area and the number of nests to be collected from that area. Only one area may be specified from which a partial quota will be collected.

3. Any nest quota for which fee payment and notice are not received as specified in paragraph (3)(b), above, shall be assigned to the other collection group provided that the group's egg coordinator submits fee payment and notice for the quota to be transferred within five working days of notification as specified in paragraph (3)(b).

4. Egg Coordinators shall be issued Alligator Egg Fee Assessment Records (FWC Form 1007AF, effective April 1, 1996, which is incorporated herein by reference) by the Commission that document the number of eggs for which payment was received and permits specifying the areas, quotas, and requirements for egg collections.

5. Permits shall expire August 7 of each year, except that the executive director, or his designee, may extend the expiration date upon request of a group egg coordinator if collections are delayed for reasons outside of the control of the egg coordinator and collectors and a concerted effort has been made to complete the collections before August 7. Any quota unused upon expiration of the permit shall be assigned to the other collection group upon purchase of the requisite number of egg permits by the other group's egg coordinator.

6. Alligator egg collections may be conducted only according to provisions of the egg collection permit and only from locations and during periods specified in the permit.

7. Each egg coordinator shall be solely responsible for making fee payments, informing participants in the collection of permit requirements, ensuring that permit requirements are met, meeting reporting requirements, conducting egg collections, and equitably distributing eggs to group participants.

8. Egg collections shall only be conducted under the supervision of Commission personnel.

9. Prior to egg collection, the egg coordinator shall request approval of collection dates, exit points, and egg inspection sites for each collection area from the executive director or his designee. Egg inspection sites at locations different from approved exit points shall be approved by the executive director or his designee only in extenuating circumstances or when shelter from inclement weather and utilities suitable for egg inspection are not available at the exit point. Commission personnel shall be provided the opportunity to inventory eggs at the exit point and to supervise the transport of eggs from the exit point to such approved egg inspection sites.

10. Farmers in each collection group shall be given equal opportunity to participate in the egg collection and distribution; farmers in each group who are not permitted pursuant to paragraph 68A-25.004(2)(f), F.A.C., shall be entitled to receive a share of the eggs collected from each area in proportion to the percentage of the group's fees that they paid.

11. Eggs may only be taken under this rule by alligator farmers in the collection group, the egg coordinator, and their agents licensed as specified in Section 379.3751, F.S.

12. The number of nests opened on each egg collection area shall not exceed the quota established pursuant to paragraph (2)(d). All eggs from each opened nest shall be collected.

13. The egg coordinator shall possess Alligator Egg Fee Assessment Records that indicate an available balance of no less than one egg collection permit for each egg collected.

14. All eggs collected each day shall be presented in a single layer for inspection to Commission personnel at the designated egg inspection site. The egg coordinator may select eggs to be retained and shall mark said eggs in a manner designated by the Commission. A fee of \$5 per egg shall be assessed for every

68A-25.031 Regulations Governing Alligator Egg and Hatchling Collections on Lands Not Included in Alligator Management Programs, cont.

egg retained as recorded on Alligator Egg Fee Assessment Records. All remaining eggs shall be surrendered to Commission personnel at the egg inspection site. Each egg coordinator shall be refunded fees assessed under this provision for eggs retained from egg collections areas for which he/she has paid for the survey costs not to exceed the amount he/she paid for such surveys as documented by Commission flight records and helicopter flight time invoices.

15. Each collection day at the egg inspection site, the egg coordinator shall record the number of eggs retained on one or more Alligator Egg Fee Assessment Records, sign the form(s) to verify the number of eggs retained and balance to be collected, obtain the signature on the form(s) of the Commission staff person supervising the collection, and submit a copy of the form(s) to such staff person.

16. Each collection day at the egg inspection site the egg coordinator shall provide Commission personnel completed copies of FWC form 1005AF (effective June 26, 1994, incorporated herein by reference and available from the Commission) signed by the egg coordinator and indicating the number of eggs to be transferred to each participating farm or to a designated temporary storage facility. Eggs may be temporarily stored at the designated storage facility for up to 30 days following collection before transfer to the participating farms.

17. Eggs may only be transferred to the designated temporary storage facility or to farms participating in the egg collection group. The egg coordinator shall be responsible for ensuring that a copy of FWC form 1005AF is completed for each transfer of eggs and that a copy of the completed form, signed by the egg coordinator, accompanies the eggs during any such transfer. Any physical transfer of eggs must be accomplished within two days of completion and signing of the form by the egg coordinator.

18. Each participating farmer receiving eggs shall sign the accompanying copy of FWC form 1005AF and submit it to the Commission within ten days of the transferral date to document the addition of those eggs to their farm inventory.

(c) One dollar shall be expended by the Commission or its designee on marketing and education for each egg collected and retained under the provisions of this rule contingent upon an annual appropriation by the legislature for marketing and education activities. In the event an annual appropriation by the legislature for marketing and education activities is not granted, the fee assessed per egg collected and retained shall be reduced to \$4.

68A-25.032 Regulations Governing the Establishment of Alligator Management Programs.

Alligator management programs designed for the taking of alligator eggs and hatchlings and the trapping of non-hatchling alligators may only be established on private lands and on public lands, other than sovereign submerged lands, for which a governmental entity can demonstrate an ownership interest or a leasehold interest and approval of the owner (referred to as “public lands” in this section) under the following conditions:

(1) Alligator Management Program – Application and review procedures.

(a) The owner or authorized lessee of property containing alligator habitat (as described in FWC form 1000PW) shall make written application, on forms provided by the Commission (Alligator Management Program Application, FWC form 1000PW, effective November 21, 2014, is incorporated to the rule by reference and may be obtained from the Commission and is found online at: <http://www.flrules.org/Gateway/reference.asp?No=Ref-04818>), for establishment of an Alligator Management Program each calendar year. A group of landowners or authorized lessees may apply jointly provided their properties are adjoining.

68A-25.032 Regulations Governing the Establishment of Alligator Management Programs, cont.

(b) The alligator habitat described in the Alligator Management Program Application may not include lands established as an alligator harvest management unit pursuant to Rule 68A-25.042, F.A.C., or an alligator egg collection area pursuant to Rule 68A-25.031, F.A.C.

(c) Alligator habitat inventories contained in Alligator Management Program Applications shall be verified by an individual who is designated as an associate wildlife biologist or a certified wildlife biologist under The Wildlife Society's Program for Certification of Professional Wildlife Biologists, The Wildlife Society, 5410 Grosvenor Lane, Bethesda, MD 20814; or who is designated as an associate ecologist, ecologist, or senior ecologist under the Ecological Society of America's Certification Program, ESA Center for Environmental Studies, Arizona State University, Tempe, AZ 85287-3211; or who is designated as an associate fisheries scientist or a certified fisheries scientist under the American Fisheries Society's Professional Certification Program, American Fisheries Society, 5410 Grosvenor Lane, Suite 110, Bethesda, MD 20814-2199; or who is a full Member of the Society of American Foresters, 5400 Grosvenor Lane, Bethesda, MD 20814. Non-hatchling alligator, hatchling and nest surveys contained in said applications shall be verified by an individual who is designated as a certified wildlife biologist by The Wildlife Society's Program for Certification of Professional Wildlife Biologists.

(d) Applicants may incorporate by reference in their annual application the habitat inventories and non-hatchling alligator surveys referenced in paragraph (1)(c) above that were previously submitted by the applicant and that remain on file with the Commission provided that habitat conditions have not changed on the property. New applicants for previously permitted properties must submit newly verified habitat inventories and non-hatchling alligator surveys as specified in paragraph (1)(c) above.

(e) Upon review and approval of timely submitted applications, individuals designated in the application (hereinafter referred to as designees) shall be entitled to receive permits to take alligators, eggs, or hatchlings on the permitted property in accordance with permit provisions and provisions of this rule.

(f) Applicants may identify one designee for taking non-hatchling alligators, one designee for taking alligator eggs, and one designee for taking alligator hatchlings. Public lands applicants must select designees by a competitive bidding or random selection process. Requests to change a designee shall be in writing.

(g) Designees shall be licensed in accordance with the provisions of Section 379.3751, F.S., prior to the issuance of their permits. A permittee's agents shall be licensed, if necessary, in accordance with the provisions of Section 379.3751, F.S., prior to said agents taking non-hatchling alligators, alligator hatchlings, or alligator eggs.

(h) Permits shall be issued to designee within 60 days following receipt of a complete application meeting the criteria established herein (applicants should submit applications at least 60 days prior to the opening of the harvest period to ensure timely issuance of harvest permits and tags prior to the opening of the harvest period). Permits may be denied, pursuant to Rule 68-1.010, F.A.C., to designees who have previously failed to return unused tags and completed forms as specified herein.

(2) Procedures governing the issuance of harvest permits and the taking of non-hatchling alligators.

(a) Harvest quotas for non-hatchling alligators may be requested by submitting the following information:

1. A habitat inventory (as described in FWC form 1000PW); or
2. A habitat inventory (as described in FWC form 1000PW) and an alligator population survey; or
3. An alligator population survey.

(b) With respect to alligator population surveys submitted pursuant to subparagraphs (2)(a)2. and 3.:

1. Only one alligator population survey may be submitted each year.
2. A harvest quota may be requested without submitting a current alligator population survey in the year immediately following two consecutive years of alligator population surveys, and in alternate years thereafter, provided the surveyed areas and survey methodologies are comparable between surveys.

68A-25.032 Regulations Governing the Establishment of Alligator Management Programs, cont.

3. A one-time request for a harvest quota may be submitted to utilize any unused harvest quota specific to the property from the previous year, provided other provisions for establishing a harvest quota have not been utilized.

(c) Upon review of the habitat inventory or the alligator population survey, Commission biologists shall recommend to the executive director or his designee a harvest quota for the permitted property. Such recommended quotas shall be based upon the best biological information that indicates the number of alligators that can be removed from the system without long-term adverse impacts on population levels. Upon approval of harvest quotas by the executive director or his designee, the Commission shall furnish the designee a harvest permit and an alligator CITES tag for each non-hatchling alligator to be taken from the approved area. Harvest permits shall expire on December 31 of each year, and associated CITES tags may not be used after that date.

(d) Alligators captured for release may only be taken using live traps; snares, snatch hooks, or by hand; or by other non-injurious method. Any alligators captured by the following methods cannot be released: firearms and sethooks; baited, wooden pegs less than two (2) inches in length attached to a hand-held restraining line; harpoons and gigs; and manually operated spears, spearguns, gig-equipped bang sticks, and crossbows and bows with projectiles attached to a restraining line. The use of firearms other than bang sticks and gig-equipped bang sticks is prohibited from sunset to sunrise. Notwithstanding Rule 68A-4.002, F.A.C., a light may be used in conjunction with these methods of take.

(e) Any person possessing a valid alligator trapping or trapping agent's license, or who is exempt from such licenses, pursuant to Section 379.3751, F.S., may take non-hatchling alligators provided they are authorized to do so by the designee. Authorized persons taking non-hatchling alligators independently of the designee shall be in possession of a copy of the harvest permit.

(f) Any alligators captured shall be released or killed before the permittee, or authorized persons referenced in paragraph (2)(e) above, leaves the property described in the Alligator Management Program Application (FWC form 1000PW). An identifying alligator CITES tag issued by the Commission shall be locked through the skin of the alligator within six (6) inches of the tip of the tail immediately upon killing or, if the alligator is killed from or in a boat, no later than immediately upon return to shore and before leaving the property. If there is a permitted alligator processing facility on the property, alligators must be tagged immediately upon capture except that alligators captured from a boat must be tagged no later than immediately upon return to shore and before leaving the property. The identifying alligator CITES tag shall remain attached to the alligator hide until the hide is tanned, taxidermy mounted, or exported from the state. CITES tags may not be altered to compromise the locking mechanism in any way and shall be used only one time. The possession of any alligator hide not tagged as prescribed herein is prohibited, and such hide shall be subject to seizure and forfeiture to the Commission under the provisions of Section 379.338, F.S.

(g) An alligator harvest report form (FWC form 1001AT, effective May 28, 2000, is incorporated to the rule by reference and may be obtained from the Commission's Tallahassee and regional offices), provided by the Commission, must be completed by the permittee within 24 hours of taking each alligator and prior to the transfer of the carcass to another person. The permittee shall submit a legible copy of each completed alligator harvest report form to the Commission for receipt by January 15 of the following year.

(h) Five dollars (\$5) shall be expended by the Commission or its designee on marketing and education for each CITES tag used under the provisions of this rule contingent upon an annual appropriation by the legislature for marketing and education activities.

(3) Procedures governing the issuance of collection permits and the taking of alligator eggs and hatchlings.

(a) Alligator eggs and hatchlings may be collected from properties as described in FWC form 1000PW.

(b) Designees who wish to harvest alligator eggs shall submit an alligator nest survey to the Commission by August 1 of each year, and designees who wish to harvest alligator hatchlings shall submit to the Commission an alligator hatchling pod inventory by November 1 of each year, as specified in the Alligator

25.032 Regulations Governing the Establishment of Alligator Management Programs, cont.

Management Program Application (FWC form 1000PW).

(c) With respect to alligator nest and hatchling pod surveys submitted pursuant to paragraph (3)(b):

1. Only one alligator nest and hatchling pod survey may be submitted each year.

2. A harvest quota may be requested without submitting a current alligator nest or hatchling pod survey in the year immediately following two consecutive years of alligator nest or hatchling pod surveys, and in alternate years thereafter, provided the surveyed areas and survey methodologies are comparable between surveys.

(d) Commission biologists shall assess the status of the alligator population based on available habitat and survey information provided by the applicant's designee and recommend to the executive director or his designee the number of alligator eggs and/or hatchlings to be collected.

(e) Upon approval of quotas by the executive director or his designee, the Commission shall issue the 68A-

applicant's designee a harvest permit and alligator hatchling tags or an Alligator Egg Fee Assessment Record (FWC Form 1007AF) following receipt of hatchling tag or egg permit fees. Alligator hatchling tags provided under this subsection shall be fixed, pursuant to Section 379.3752, F.S., at a cost of \$5 each and alligator egg fee permits provided under this subsection shall be fixed, pursuant to Section 379.3751, F.S., at a cost of \$2 each.

(f) In addition to the procedures detailed in paragraphs (3)(b) through (d) above, following receipt by the Commission of a written request for an alligator egg collection permit (supervised) and issuance of such permit, eggs may be collected as directed in the harvest permit from nests observed during an on-site survey by an individual meeting the requirements for verifying nest surveys in paragraph (1)(c) of this rule, provided the permittee has submitted a fee of \$2 per egg to be collected and has been issued one or more Alligator Egg Fee Assessment Records by the Commission that document the number of eggs for which payment was received. Such collections shall only be conducted under the direct supervision of said individual according to the provisions of the collection permit. The permittee must submit to the Commission a map or GPS coordinates of the locations of all alligator nests observed during the on-site survey within 15 days following the expiration date of the egg collection permit. The nest location map or GPS coordinates must be verified by an individual meeting the requirements for verifying nest surveys in paragraph (1)(c) of this rule.

(g) Alligator eggs and/or hatchlings may be taken only at the times and under the conditions set forth in the collection permit. Hatchlings shall be tagged immediately upon capture with an alligator hatchling tag provided by the Commission, except that hatchlings captured from a boat shall be tagged no later than immediately upon return to shore and before leaving the property. An Alligator Egg Fee Assessment Record (FWC form 1007AF, effective April 1, 1996, which is incorporated herein by reference and may be obtained from the Commission) must be completed and signed by the permittee to document all retained eggs on the day of collection and prior to transporting the eggs from the property or to a licensed farm facility. A copy of such Alligator Egg Fee Assessment Record must remain with the eggs until the eggs are transferred to a licensed farm facility.

(h) Any person possessing a valid alligator farming or farming agent's license pursuant to Section 379.3751, F.S., may take alligator eggs or hatchlings as provided in the harvest permit provided they are authorized to do so by the designee. Authorized licensees taking alligator hatchlings or eggs independently of the designee shall be in possession of a copy of the harvest permit.

(i) Persons issued permits shall maintain complete records of eggs or hatchlings taken, and shall complete and return within 15 days an alligator transfer document (FWC form 1003AF, effective April 10, 1994) provided by the Commission for eggs or hatchlings transferred to alligator farm facilities permitted under Rule 68A-25.004, F.A.C.

(j) Alligator eggs or hatchlings taken under this rule must be transferred within 15 days of taking to farms permitted as eligible to receive eggs and hatchlings from the wild as specified in Rule 68A-25.004, F.A.C.

25.032 Regulations Governing the Establishment of Alligator Management Programs, cont.

(4) Commission personnel shall be granted access to any lands or facilities permitted hereunder in order to verify application information submitted hereunder and to collect biological data on and specimens from alligators, their eggs or hatchlings, provided that specimens shall only be collected when necessary for the management of the species. b. For a period of ten (10) years preceding the date of application if such conviction involved the taking of an endangered crocodylian species.

(c) Permits shall be issued upon determination that the applicant meets the requirements of this subsection.

(d) CITES tags shall be issued with each harvest permit, except that harvest tags bearing the letters "MER" shall also be issued with harvest permits for management units for which the best available scientific data indicates the average mercury concentrations in alligators therein exceeds the Federal limit for legal sale of the meat.
