

# Enjoy wildlife viewing ...from a distance

David Moynahan, FWC

**Keep your distance ■ Avert your gaze ■ Go slow ■ Be quiet**

Wild animals may tolerate your presence giving you a more rewarding wildlife viewing experience if you observe these guidelines. Loud noises, fast movement, approaching an animal or looking directly at them is more likely to disturb them. Enjoy wildlife viewing from a distance.

- Use binoculars or your camera's zoom feature for a close-up encounter
- Keep dogs on a leash or leave at home
- If animals change their behavior or move away you are too close
- **NEVER** feed or touch wildlife
