

MEMORANDUM

To: Florida Fish and Wildlife Conservation Commissioners
From: Chris Wynn, Regional Director, North Central Region
Date: November 18, 2015
Subject: Veteran's Day Recognition

Purpose:

To recognize our military men and women while highlighting our agency and armed forces partnerships.

Summary:

FWC has a long-standing and strong relationship with the United States Military. FWC has implemented several military-exemption programs, assisted with fish and wildlife habitat planning on military bases, reduced regulations for veterans starting a new business, and partnered with several military bases to increase fish and wildlife conservation in Florida.

In honor of Veteran's Day (November 11, 2015), the FWC will highlight and discuss some of the successful military partnerships as well as our gratitude to the dedicated women and men of our armed forces.
