

The **required options** and **bulleted caveats** for each fixture listed below **must be followed**. Please note, even though the fixtures listed are certified, they may not be appropriate on all properties or locations on a property.

The items listed below are intended to act as a resource to assist in identifying products that have been certified through the Wildlife Lighting Program. To purchase these products, please contact the manufacturers or distributors of these products.

Be sure to return to this document often, as new information is added regularly.

Please note the following:

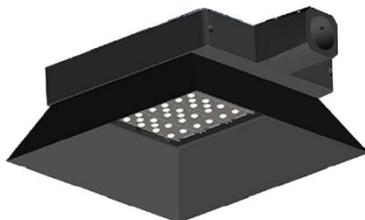

- FWC must be contacted for proper siting and shielding prior to installation.
- Louvers and/or beachside shields shall be used for any fixture within line of sight of the beach.
- Lowest mounting height practicable to meet FDOT Standards.
- Approved long wavelength light source.

 A photograph of an Amber LED Street Light fixture. The main fixture is a rectangular, light-colored unit with a handle on the left side and a large array of LED chips on the right. Below the main fixture are two smaller components: a small rectangular LED module and a long, narrow, light-colored louver or shield.	<p>Name: Amber LED Street Light Catalog Number: STL-AMB Light Source: Must be lamped with the approved integrated Amber LED (Cree XPE) & Beachside Shield Manufacturer: Synergy Link: Synergy Wildlife Lighting Certification Number: 2018-024</p> <ul style="list-style-type: none">▪ Roadway use only.▪ Louvers and/or Beachside shields for any fixture within line of sight of the beach.▪ Lowest mounting height practicable to meet FDOT Standards.▪ FWC must be contacted for proper siting and shielding prior to installation.
