October 3, 2019**

RULE NO: 68A-4.001

RULE TITLE: General Prohibitions.

PURPOSE AND EFFECT: The purpose is to prohibit the use and possession of natural cervid (deer species) urine products or other biofluids when hunting, scouting, or otherwise attempting to attract wildlife. The effect would be to help minimize the risk of chronic wasting disease (CWD) being accidentally introduced into or spread throughout Florida.

SUMMARY: The proposed rule amendment would prohibit the use and possession of natural cervid (deer species) urine products or other biofluids when hunting, scouting, or otherwise attempting to attract wildlife.

THE FULL TEXT OF THE PROPOSED RULE IS AS FOLLOWS:

68A-4.001 General Prohibitions.

(1) through (9) No change.

(10) The use or possession of scents, lures or other products that contain any natural urine, gland oil, feces, tissue, blood or any other bodily fluids of any species of the family Cervidae while taking, attempting to take, hunting, pursuing, attracting, or scouting wildlife is prohibited.
