Boating Accidents Statistical Report

2011

Florida Fish and Wildlife Conservation Commission

Division of Law Enforcement
INTRODUCTION

The Florida Fish and Wildlife Conservation Commission (FWC), powered by science-based leadership, is committed to creating a sustainable and healthy future for Florida’s fish, wildlife, water and habitat resources. The FWC serves Floridians and visitors alike in a variety of ways, most of which revolve around our mission of managing fish and wildlife resources for their long-term well-being and the benefit of people. The Division of Law Enforcement is perhaps the most visible tool within the FWC’s “tool belt” used to meet its goal of providing healthy resources for safe, satisfied customers.

THE DIVISION OF LAW ENFORCEMENT

Roles and Mission
The FWC is the only state agency in Florida with primary responsibility for the management of the state’s fish and wildlife resources. The FWC’s Division of Law Enforcement is tasked with enforcing regulations aimed at protecting and sustaining these resources both for their long-term well-being and the benefit of Florida’s residents and visitors, all the while blending in its unique and specialized public safety role. The Division’s mission is clear: “Protecting Florida’s natural resources and people through proactive and responsive law enforcement services.”

Responsibilities
The FWC Division of Law Enforcement provides protection to those who enjoy Florida’s natural resources, while also enforcing resource protection and boating safety laws. Officers patrol rural, wilderness, inshore and offshore areas, and places where other law enforcement agencies do not routinely patrol. Our officers have the authority to enforce all laws of the state and are cross-deputized to enforce federal fisheries and wildlife laws.

Core Missions:
The core missions of the Division of Law Enforcement are evident every day in everything we do. We meet critical needs within our state, each of which is identified within our core missions.

Core mission 1: Resource protection, including the protection of Florida’s fish, wildlife and habitats to ensure their long-term well-being and continued viability for educational, recreational and commercial activities.

Core mission 2: Boating and waterways, which involves enhancing the boating safety and waterway experience through improved access, management, and enforcement.

Core mission 3: Public Safety, safeguarding and enriching the outdoor experience of our citizens and visitors, to include providing efficient emergency response to critical incidents and natural disasters through mutual aid efforts with our local, state, and federal partners.
Yet, in the course of carrying out these broad responsibilities, FWC officers take every opportunity to introduce even the youngest Floridians to the wonders of our state’s wildlife and natural resources and educate them on some very important boating safety topics.

In times of crisis, the Division provides general law enforcement services as part of Florida’s statewide emergency response network. Because of our unique jurisdiction and specialized training and equipment, we also are charged with protecting the state’s waterways and critical infrastructure during times of heightened security threat levels. As seasoned first responders, our officers are trained to move fast and efficiently where needed.

As we look to the future, we will continue to pursue and apply advances in technology to improve the way we respond to both conservation and general law enforcement incidents. When duty calls, we will always be among the first to respond, providing aid as needed. Until then, natural resource protection and proactive boating safety law enforcement and education are what we do best.

**Uniquely prepared**
On the water, in the woods and in the air, FWC law enforcement officers are uniquely situated and equipped to identify and address illegal activity and promote public safety, particularly in the maritime and wilderness areas.

Our officers often encounter criminal activity, unrelated to natural resources, while on patrol. With statewide law enforcement authority, they are able to address violations immediately – serving as a force multiplier for local jurisdictions.

With our combined talent, tools and training, we bring a wide variety of capabilities and experience to any environment. Our aviation assets, equipped with specialized technology, are often used in search and rescue and recovery efforts. They are also used to provide immediate impact assessments, aerial observation and monitoring of events or incidents, and deliver critical, life-saving supplies and response personnel to disaster sites. Specially trained canine teams track lost or stranded victims and wanted persons. Our Special Operations Group (SOG) team members are trained to search for missing or wanted persons in the roughest and most remote areas of the state.

---

**FWC Values**

**Integrity**
We value candor, honesty and the highest standards of ethical behavior and are committed to maintaining a high degree of public trust.

**Professionalism**
We value the skillful performance which demonstrates a clear sense of commitment and direction in an environment that encourages teamwork and innovation.

**Dedication**
We value the motivation and commitment with which our members serve the visitors and residents of Florida.

**Adaptability**
We value our unique capability to adapt and respond appropriately to diverse circumstances in all environments.
Every day, we work hard to ensure the FWC Division of Law Enforcement is synonymous with excellence. Working in such diverse environments can be tough and challenging, but FWC law enforcement officers are set apart by their can-do attitude and adaptable nature. When it comes to the woods and water, FWC officers are clearly Florida’s experts.

**Intervention equals prevention on the water**
FWC officers help to ensure Floridians and visitors are safe when they are on the water through proactive law enforcement, by initiating boating safety and fisheries inspections and by identifying and minimizing potential navigation and environmental hazards in the waterways.

Our Boating and Waterways and Field Services Sections support officer efforts by coordinating statewide boating safety efforts, education campaigns, ensuring waterway markers are accurate and maintained, permitting and marking speed-regulated areas, coordinating initiatives aimed at removing derelict vessels and providing more public boating access sites.

With close to a million vessels registered in the state, Florida leads the nation in the number of vessels, and, as a negative consequence of high vessel numbers and our mild climate, has the highest number of boating fatalities annually. The vast size of our inland, coastal and offshore patrol areas – combined with a significant population of avid boaters – presents a unique and daunting challenge for FWC and our local and federal maritime enforcement partners.

**Boating education is critical**
As evidenced in this 2011 Boating Accidents Statistical Report, there were 742 reportable boating accidents and 67 boating related fatalities in 2011. Many of these deaths were due to victims falling overboard and drowning. A large number of these deaths could have been prevented if the victims had worn life jackets. We continue to increase our efforts to reduce the number of boating-related fatalities through enhanced enforcement and education about the importance of wearing life jackets on the water.

---

**2010 Boating Educator of the Year**

In July 2011 the FWC selected Dr. Wilbur G. Hugli of Fort Walton Beach as Florida’s 2010 Boating Educator of the Year.

The award recognizes those in the boating education field who go above and beyond to engage new and current boaters, raise awareness and make boating education initiatives relevant, thorough and exciting.

Dr. Hugli has been part of the Fort Walton Sail and Power Squadron, a unit of the U.S. Power Squadrons, for 21 years. Through his efforts with the Power Squadrons, Hugli has volunteered his time to author four widely acclaimed boating safety seminars as well as a benchmark student manual for educating new boaters.

Dr. Hugli has reached out to young boaters, prompting a high school and the University of West Florida to implement classroom and online boating safety courses.

Dr. Hugli is a valuable partner to the FWC. He is thoroughly involved with boating safety education and training at all levels. He truly understands the goal of educating the public – reducing risk and ultimately saving lives.
With Florida’s current boating safety education law only applying to boaters born on or after January 1, 1988, face-to-face contacts by FWC officers and our partner agencies are a critical part of our outreach efforts and education to the boating public. These statistics show us that the boat operator most likely to be involved in a boating accident is a middle aged or older male who has plenty of boating experience yet has never learned the most important safety considerations by having taken a boating safety course. When officers perform fresh and saltwater resource enforcement activities, they also routinely conduct boating safety inspections aimed at both identifying and preventing violations. They make boating safer and ultimately save lives.

Safe boating is a choice
Florida is a leader in promoting boating accident prevention. The FWC, in association with the National Safe Boating Council, Bombardier Recreational Products, Inc., West Marine, the U.S. Coast Guard (USCG) and a growing list of other partners, has launched a statewide boating safety campaign as part of a national initiative. The “Wear It Florida” campaign encourages boaters to wear life jackets anytime they are on the water and educates boaters about the ease and convenience of the relatively unknown inflatable life jackets. The campaign reaches the public through a variety of methods including media events, exhibits, personal contacts and televised public service announcements.

About this report
This 2011 Boating Accidents Statistical Report is compiled by the Boating and Waterways Section of the FWC’s Division of Law Enforcement. Most of the data contained in this report is gathered from boating accident investigative reports submitted by FWC officers and our marine law enforcement partners working for local agencies.

2011 FWC Boating Officer of the Year
Officer Donnie McKee was named the 2011 FWC Boating Officer of the Year. Officer McKee began his career with FWC in 2007 and is assigned to the south St. Johns River.

Since starting with the agency, Officer McKee’s BUI initiatives have been one of his major priorities. In 2011, he led his region with seven BUI arrests.

Officer McKee also initiated the 2011 operational campaign, “Don’t Rock the Boat” that targeted vessels traveling at excessive speeds. Officer McKee continually stresses safety in his patrol zone.

Officer McKee actively participates in annual Manatee Days where he takes the opportunity to educate the public about the importance of boating safety.

Congratulations, Donnie! Keep up the good work!
At the end of each calendar year, boating accident data is compiled and assembled into Florida’s annual report. The FWC’s Boating and Waterways Section analyzes these statistics and uses the information to formulate proactive plans aimed at reducing the number of boating accidents and their related injuries, fatalities and property damage. This information is also reported to the Boating Safety Division of the U.S. Coast Guard in Washington, D.C. to be included in the national database consisting of data from all U.S. states and territories.

These statistics reflect data from “reportable boating accidents” that occurred in our state. Boating accidents must meet at least one of the six criteria below to be classified as “reportable”:

- A person dies,
- A person disappears under circumstances that indicate possible death or injury,
- A person receives an injury requiring medical treatment beyond immediate first aid,
- There is at least $2,000 aggregate property damage to the vessel(s) or other property, or
- There is a total loss of a vessel.

Although, the number of recreational vessels registered in the State of Florida fell slightly in 2011 with 922,491 registered vessels, Florida is poised to once again lead the nation in registered vessels. Additionally, it is estimated that up to 1 million non-registered vessels actively use Florida’s waters, and this segment of the boating population appears to still be growing. Our waterways increasingly show the strains of congestion as each year brings more residents and visitors together to utilize our abundant water resources and enjoy Florida’s boating lifestyle.

Anyone having questions concerning this report should visit www.MyFWC.com.
SUMMARY

BOATING ACCIDENT REVIEW

- Total number of registered vessels in Florida continues to lead the nation with 922,491 registered in 2011.
- There was a total of 742 reportable boating accidents in 2011.

2011 REPORTABLE BOATING ACCIDENTS

- 51% of the Operators involved in reportable boating accidents had no formal boater education.
- Monroe County reported the highest number of accidents and injuries (93 total accidents with 6 fatalities and 66 injuries).

2011 REPORTABLE BOATING FATALITIES

- 39% of the fatal accidents were falls overboard (24 accidents). In 2011, boaters falling overboard remained the main cause of boating fatalities.
- The leading cause of death in fatal boating accidents was drowning (63%).
- Deadliest months in 2011 were August and November with 9 fatalities each.
- Alcohol or drug-use played a role in 15% of boating fatalities.
- 93% of the victims of fatal boating accidents were males (62).
- The total fatality count for 2011 is reported at 67.
- 68% (45) of the 62 fatal accidents involved operators over the age of 35.
- 94% of all fatal accidents in 2011 involved vessels 21 feet and under.

2011 REPORTABLE BOATING INJURIES

- There were 742 accidents resulting in 431 injuries. The rate of injury was 47 injuries per 100,000 vessels.

2011 REPORTABLE PERSONAL WATERCRAFT ACCIDENTS

- Personal watercrafts (PWC) accounted for 13% of all registered vessels in Florida.
- PWC were involved in 22% (162) of reported boating accidents.
- 41% of PWC accidents involved a collision with another vessel.
- 31% of PWC accidents occurred in Monroe, Miami-Dade and Pinellas Counties, with Monroe County ranked #1 (with 24 accidents).
- 7 fatalities resulted from the 162 PWC accidents.

2011 BOATING EDUCATION STATISTICS

- FWC issued 27,062 Boating Safety Education ID cards in 2011.
- 48% of the cards were issued to persons 21 years of age or younger.
- Of the 27,062 cards issued, 19,315 were issued to males, 6,204 were issued to females, and 1,543 cards did not specify the person’s gender.

GLOSSARY OF DEFINITIONS

ALCOHOL/DRUG RELATED – Refers to any accidents in which alcohol/drug use may have been a contributing factor, whether or not the operator was legally impaired.

AT ANCHOR – Held in place in the water by an anchor, includes “moored” to a buoy or anchored vessel and “dragging anchor.”

BOATING ACCIDENT - A collision, accident, or casualty involving a vessel, in or upon, or entering into or exiting from, the water, includes capsizing, collision with another vessel or object, sinking, personal injury, death or disappearance of any person from on board under circumstances which indicate the possibility of death or injury, or property damage to any vessel or dock.

CABIN MOTORBOAT - Motorboats with a cabin which can be completely closed by means of doors or hatches. Large motorboats with cabins, even though referred to as yachts, are considered to be cabin motorboats.

CAPSIZING - Overturning of a vessel.

COLLISION WITH ANOTHER VESSEL - Any striking together of two or more vessels, regardless of operation at time of the accident, is a collision. (Also includes colliding with the tow of another vessel, regardless of the nature of the tow, e.g., surfboard, ski ropes, skier, tow line, etc.)

COLLISION WITH FIXED OBJECT - The striking of any fixed object above or below the surface of the water.

COLLISION WITH A FLOATING OBJECT - Collision with any waterborne object (except another vessel), above or below the surface, that is free to move with the tide, current, or wind.

CRUISING - Proceeding normally, unrestricted, with an absence of drastic rudder or engine changes.

DOCUMENTED VESSEL - A vessel for which a valid certificate of documentation is outstanding pursuant to 46 C.F.R. part 67. Documented vessels are not numbered.

DOCUMENTED YACHT - A vessel of five or more net tons, owned by a citizen of the United States, and used exclusively for pleasure with a valid marine document issued by the United States Coast Guard. Documented yachts are not numbered.

DRIFTING - Underway, but not proceeding over the bottom with use of engines, oars, or sails; being carried along only by the tide, current, or wind.
FALL OVERBOARD - A person who unintentionally exits the vessel.

FAULT OF OPERATOR - Speeding, overloading, improper loading, not properly seating occupants of boat, no proper look-out, carelessness, failure to heed weather warnings, operating in a congested area, not observing the Rules of the Road, unsafe fueling practices, lack of experience, ignorance of aids to navigation, lack of caution in an unfamiliar area of operation, improper installation or maintenance of hull, machinery or equipment, poor judgment, recklessness, overpowering the boat, panic, proceeding in an unseaworthy craft, operating a motorboat near persons in the water, starting the engine with clutch engaged or throttle advanced, or irresponsible boat handling (such as quick, sharp turns).

FIBERGLASS (PLASTIC) HULL - Hulls of fiber-reinforced plastic. The laminate consists of two basic components, the reinforcing material (glass filaments) and the plastic or resin in which it is embedded.

FIRE/EXPLOSION (FUEL) - Accidental combustion of vessel fuel, liquids (including their vapors).

FIRE/EXPLOSION (OTHER) - Accidental burning or explosion of any material on board, except vessel fuels or their vapors.

FLORIDA INTRACOASTAL WATERWAY - The Atlantic Intracoastal Waterway from the Georgia state line north of Fernandina to Miami, the Port of Canaveral lock and canal to the Atlantic Intracoastal Waterway; the Atlantic Intracoastal Waterway, Miami to Key West; the Okeechobee Waterway, Stuart to Fort Myers; the St. Johns River, Jacksonville to Sanford; the Gulf Intracoastal Waterway, Anclote to Fort Myers; the Gulf Intracoastal Waterway, Carrabelle to Tampa Bay; Carrabelle to Anclote open bay section (using Gulf of Mexico); the Gulf Intracoastal Waterway, Carrabelle to the Alabama state line west of Pensacola; and the Apalachicola, Chattahoochee and Flint rivers in Florida.

FLOODING - Filling with water, regardless of method of ingress, but retaining sufficient buoyancy to remain on the surface.

FUELING - Any stage of the fueling operation, primarily concerned with introduction of explosive or combustible vapors or liquids on board.

GROUNDING - Running aground of a vessel, striking or pounding on rocks, reefs, or shoals; "stranding."

IMPROPER LOADING - Loading, including weight shifting of the vessel, causing instability, limited maneuverability, or dangerously reduced freeboard.

INBOARD/OUTBOARD - Also referred to as inboard/outdrive. Regarded as inboard because the power unit is located inside the boat and has a stern-mounted propulsion unit.
**MANEUVERING** - Changing of course, speed, or similar boat handling action during which a high degree of alertness is required or the boat is imperiled because of the operation, such as docking.

**MOTORBOAT** - (1) Any vessel which is propelled or powered by machinery and which is used or capable of being used as a means of transportation on water. (2) Any vessel equipped with propulsion machinery, not more than sixty-five feet in length.

**MOTOR VESSEL** - Any vessel equipped with propulsion machinery (other than steam) more than sixty-five feet in length.

**NAVIGATION RULES** - The International Navigation Rules Act of 1977 for vessels on waters outside of established navigation lines of demarcation as specified in 33 C.F.R., Part 80 or the Inland Navigation Rules Act of 1980 for vessels on all waters not outside of such lines of demarcation.

**NON-RESIDENT** - A citizen of the United States who has not established residence in this state and has not continuously resided in this state for one year and in one county for the six months immediately preceding the initiation of a vessel titling or registration action.

**NO PROPER LOOK-OUT** - No proper watch, the failure of the operator to perceive danger because no one was serving as look-out, or the person so serving failed in that regard.

**NUMBERED VESSEL** - An undocumented vessel numbered by a state with a numbering system approved by the United States Coast Guard under Chapter 123, Title 46, U.S.C.

**OPEN MOTORBOAT** - Craft of open construction specifically built for operating with a motor, including boats canopied or fitted with temporary partial shelters.

**OPERATE** - To be in charge of or in command of or in actual physical control of a vessel upon the waters of this state, or to exercise control over or to have responsibility for a vessel’s navigation or safety while the vessel is underway upon the waters of this state, or to control or steer a vessel being towed by another vessel upon the waters of this state.

**OWNER** - A person, other than a lien holder, having the property or title to a vessel. The term includes a person entitled to the use or possession of a vessel subject to an interest in another person, reserved or created by agreement and securing payment of performance of an obligation, but the term excludes a lessee under a lease not intended as security.

**OUTBOARD** - An engine not permanently affixed to the structure of the craft, regardless of the method or location used to mount the engine; e.g., motor wells, kicker pits, motor pockets, etc.
OVERLOADING - Excessive loading of the vessel causing instability, limited maneuverability, dangerously reduced freeboard, etc.

PERSONAL WATERCRAFT - A vessel less than 16 feet in length which uses an inboard motor powering a water jet pump as its primary source of motive power and which is designed to be operated by a person sitting, standing, or kneeling on the vessel, rather than in the conventional manner of sitting or standing inside the vessel.

RECKLESS OPERATION - A person is guilty of reckless operation of a vessel who operates any vessel, or manipulates any water skis, aquaplane, or similar device, in willful or wanton disregard for the safety of persons or property at a speed or in a manner as to endanger, or likely to endanger, life or limb, or damage the property of, or injure any person.

REGISTRATION - A state operating license on a vessel which is issued with an identifying number, an annual certificate of registration, and a decal designating the year for which a registration fee was paid.

REPORTABLE BOATING ACCIDENT - An accident that results in personal injury requiring medical treatment beyond immediate first aid, death, disappearance of any person from on board under circumstances which indicate the possibility of death or injury, or damage to any vessel or other property in an apparent aggregate amount of at least $2000, or total loss of a vessel.

RESIDENT - A citizen of the United States who has established residency in this state and has continuously resided in this state for one year and in one county for the six months immediately preceding the initiation of a vessel titling or registration action.

SAILBOAT OR AUXILIARY SAILBOAT - (1) Any vessel whose sole source of propulsion is the natural element (i.e., wind). (2) Craft intended to be propelled primarily by sail, regardless of size or type.

SINKING - Losing enough buoyancy to settle below the surface of the water.

SPEEDING - Operating at a speed possibly below the posted speed limit, above that which a reasonable and prudent person would operate under the circumstances.

STEEL HULL - Hulls of sheet steel or steel alloy, not those of steel ribs and wood, canvas, or plastic hull coverings.
**STRUCK BY BOAT OR PROPELLER** - Striking of a victim who is outside of the boat, but not necessarily a swimmer.

**SWAMPING** - Filling with water, particularly over the side, but retaining sufficient buoyancy to remain on the surface.

**TOWED WATERSPORT MISHAP** – A water sport accident associated with vessel passenger(s) or person(s) being towed or surfing the wake created by a vessel. Includes, but is not limited to, water skiing, wakeboarding, tubing, parasailing, etc.

**TOWING** - Engaged in towing any vessel, fishing gear, or object other than a person.

**VESSEL** - Is synonymous with boat as referenced in S.1 (b), Article VII of the State Constitution and includes every description of watercraft, barge, and air boat, other than a seaplane on the water, used or capable of being used as means of transportation on water.

**WOOD HULL** - Hulls of plywood, molded plywood, wood planking, or any other wood fiber in its natural consistency, including those of wooden construction that have been "sheathed" with fiberglass or sheet metal.

2011 Reportable Boating Accidents

Primary Type of Accident

- Struck by boat (person): 2
- Starting engine: 5
- Skier hit object: 7
- Struck by skeg/prop: 9
- Sinking: 12
- Fire/explosion (non-fuel): 14
- Skier mishap/fall: 15
- Collision floating object/person: 16
- Other: 20
- Fall in boat: 24
- Struck underwater object: 25
- Fall on PWC: 25
- Vessel wake damage: 26
- Grounding: 27
- Fire/explosion (fuel): 29
- Capsizing: 35
- Flooding/swamping: 67
- Falls overboard: 71
- Collision with fixed object: 152
- Collision with vessel: 161

*742 accidents involving 1018 vessels.
(Based on first harmful event as determined by the state reviewing authority.)

Secondary Type of Accident

- Fire/explosion (fuel): 2
- Struck underwater object: 2
- Vessel wake damage: 3
- Fire/explosion (non-fuel): 3
- Starting engine: 4
- Other: 4
- Collision floating object/person: 8
- Collision with vessel: 12
- Grounding: 15
- Fall on PWC: 15
- Flooding/swamping: 18
- Struck by skeg/prop: 22
- Collision with fixed object: 22
- Fall in boat: 25
- Sinking: 25
- Struck by boat (person): 31
- Capsizing: 54
- Falls overboard: 65

*No secondary type of accident assigned to 412 accidents.
2011 Reportable Boating Accidents

Operation at Time of Accident

- Sailing: 4
- Towing a boat: 4
- Being towed: 5
- Launching/loading: 7
- Rowing/paddling: 8
- Wake/surf jumping: 9
- Docking/undocking: 46
- Changing speed: 67
- No Info: 72
- At anchor: 73
- Drifting: 75
- Docked (moored): 119
- Changing direction: 141
- Cruising: 363

*742 accidents involving 1018 vessels.

Activity at Time of Accident

- Scuba diving: 1
- Hunting: 1
- Fueling: 1
- At Anchor: 1
- Tournament (fishing): 3
- Racing (sanctioned): 3
- Swimming/snorkling: 4
- Skiing: 4
- Starting engine: 9
- Making repairs: 16
- Boat pulling tube: 22
- Commercial purpose: 58
- Fishing (recreational): 97
- No info: 141
- Other: 141
- Recreational cruising: 516

2011 TOP COUNTIES

FLORIDA FISH AND WILDLIFE
CONSERVATION COMMISSION
DIVISION OF LAW ENFORCEMENT
2011 Top Ten Counties

A thorough review of the annual boating accident statistics has revealed that 59% of the reportable boating accidents during the 2011 calendar year occurred in 10 Florida counties.

The information on the following pages represents a breakdown of the accident data from each of these top 10 counties. The graphs show the types of vessels involved, the primary cause of each accident and the primary type of accidents for each county. There is also a map of each county with points designating the accident locations.

The information found in this section will provide a basis for future boating safety awareness efforts implemented by the FWC Division of Law Enforcement, Boating and Waterways Section.

**IMPORTANT**

boating safety messages to remember

Always know what’s going on around your boat.
Most boating accidents involve collisions.
Staying alert is critical!

Develop a “Life Jacket Habit.”
Most people who die in boating accidents drown. Try out an inflatable life jacket and, most of all, wear it!

Alcohol use is a leading cause of boating deaths.
Alcohol and boating really don’t mix, so save it for later. When you drink, you don’t think!

*From your friends at the Florida Fish and Wildlife Conservation Commission*
FWC reminds you that the best way to avoid becoming a boating statistic is to pay attention and wear a life jacket.
