

2013 Trend Analysis

Trend Analysis photo detail

An accident occurred in the C-14 canal in Broward County at approximately 3:45 p.m. A 23 year old male was operating a 17' Aquasport towing two males ages 20 and 22 on a tube. The operator was heading east in the C-14 canal. The operator noticed that his vessel had gotten too close to the north shoreline and made a sharp turn to starboard (to the right) which caused the tube and passengers to slide across the water and impact with the rocky shoreline of the canal. The 22 year old was transported to the hospital with abrasions and lacerations. The 20 year old did not survive his injuries.

IMPORTANT

boating safety messages to remember

Always know what's going on around your boat.

Most boating accidents involve collisions.
Staying alert is critical!

Develop a "Life Jacket Habit."

Most people who die in boating accidents drown. Try out an inflatable life jacket and, most of all, wear it!

Alcohol use is a leading cause of boating deaths.

Alcohol and boating really don't mix, so save it for later. When you drink, you don't think!
