

**Florida State Wildlife Grants
Technical Review Form**

The Florida Fish and Wildlife Conservation Commission appreciates your assistance in completing the evaluation of the attached project proposal. The purpose of this review is to evaluate proposals for their technical merit and the capabilities of the project personnel to meet the project objectives. Because of the Sunshine Law, an applicant may request information about the technical reviews. While every effort will be made to ensure reviewer anonymity, disclosure of reviewer names may be legally required. Your scores and comments are valuable to the Florida Wildlife Legacy Initiative as projects are considered for funding.

Project Name

Reviewer Name

Date

Please score the proposed project using the questions below and a 1-5 scale for each question, where 1 is poor and 5 is excellent. There are ten questions, each with a possible score of 1, 2, 3, 4, or 5. Please enter your total score for all ten questions next to "total project review score." The highest score possible is 50.

Space is provided on the second page for you to further explain the score you give this proposal.

Personnel Qualifications

1. How well has the Principal Investigator demonstrated his/her knowledge in the area of the proposed work?
2. How would you evaluate the Principal Investigator's capacity to successfully complete the objectives of the project?
3. Do the partners included in the proposal have the appropriate education and experience for their roles in the project?

Methods and Approach

4. Are the proposed methods appropriate to meeting the project needs and objectives?
5. Does the overall approach to the project follow sound scientific standards?
6. Does the proposal clearly identify the project area? Is the identified area appropriate to the project objectives?
7. Are the analysis and use of data and information sufficiently described and reflected in current literature?

Project Budget and Deliverables

8. Are the requested budget categories and amounts cost effective, justified, necessary, and reasonable to perform the scope of work?
9. Are the deliverables specific, quantifiable, measurable and verifiable?

Overall

10. What is your overall evaluation of the project?

Total Project Review Score

Please provide additional comments and concerns regarding this project. As you write your comments, please consider the following.

Are the Principal Investigator and other partners qualified to execute this project?

Will the suggested approach address the problem identified in the call for proposals?

Are the technical aspects of the scope of work sound?

Are the costs appropriate and in line with commonly accepted standards?
