FLORIDA FISH AND WILDLIFE CONSERVATION COMMISSION

The Florida Fish and Wildlife Conservation Commission (FWC) is the state government agency in charge of making sure we all can enjoy and use our fish and wildlife. At the same time, the FWC has to make sure we don't use too much of these resources at once. That's called conservation.

Most importantly, however, the FWC makes sure people can hunt and fish safely. The FWC has hundreds of policemen, called "conservation officers," who work hard to catch people who break the law. Conservation officers also help rescue hunters and fishermen who get lost or hurt while out in the woods or on the water.

The FWC also has hundreds of scientists who try to learn all they can about our fish and wildlife, so we will be able to take care of them.

All the policemen and all the scientists in the world couldn't really make a difference, though, without the hunters and fishermen doing their part too by knowing the rules and obeying them. Obeying the rules is called practicing ethics.

When you hunt or fish, no matter if you are on land, freshwater or saltwater, it's important that you be safe and that you practice conservation and ethics. The purpose of this course is to show you how.
