

**Background Report**  
**Summary of Potential Changes to Early Migratory Bird Seasons, 2012-2013**  
**Consent Agenda Item 2**  
**June 27, 2012**

*(Note – This report addresses only early migratory bird seasons, which include dove, rail, gallinule, woodcock, snipe, September Canada goose, and special September duck seasons. Potential changes to the regular waterfowl season will be covered at the September Commission meeting.)*

Federal regulations are amended annually to establish the maximum number of days and dates within which individual species and groups of species of migratory birds can be hunted. These regulations also establish the maximum bag limits for taking migratory birds. States are required to select dates and bag limits for taking migratory birds within these “frameworks.” The federal schedule for establishing the frameworks precludes the Commission from taking timely action to adapt Commission rules to changes in the frameworks. Our protocol, therefore, has been to advise the Commission in May or June of anticipated changes to federal frameworks for early migratory bird seasons, make recommendations, solicit Commission guidance, and, subsequently, make any necessary changes to Commission rules by executive order after federal frameworks are finalized. When changes are made by executive order, the pertinent rules are changed during a subsequent Commission meeting to codify in rule the changes established by order.

This is to advise you that we anticipate no changes in the federal frameworks for the 2012-2013 early migratory bird seasons. These seasons include dove, rail, common moorhen, woodcock, snipe, September Canada goose, and special September duck seasons. Dates and bag/possession limits for the 2012-2013 seasons, based on anticipated federal frameworks and Rules 68A-13.008 and 68A-13.003, F.A.C., are as indicated in the attached tables (Tables 1, 2, 3 and 4).

We plan to update you again on both early and late (regular waterfowl) seasons at the September Commission meeting. That update will describe developments occurring between now and then on anticipated or proposed changes in federal frameworks and our proposed rule changes for the 2012-2013 migratory bird seasons.
